

Example 1

2 screens used to print image onto fabric.

2 screens used to print image onto fabric.

3 screens used to print image onto fabric.

For this type of image we can use a total of 3 screens to print on both dark and light materials and produce similar results.

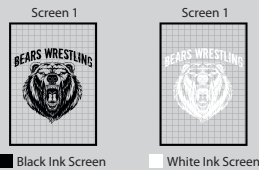

Example 2

Prints #1 and #2 use the same screen

Prints #3 would require an additional screen

Dark ink on light fabric can have a different look than light ink on dark fabric. Depending on the look you are going for, an additional screen may be required.
